

YTU faculties come to IIS for SATREPS Training in June

T. Matsushita, Project Researcher, ICUS, IIS, The University of Tokyo

Training was conducted for the ANZEN - SATREPS project members from Myanmar for three weeks from June 1 – 20, 2016. Dr. Sao Hone Pha from GIS / Remote Sensing Group, Dr. Zin Naung Htun and Dr. Pwint from Earthquake-related Disaster Group and Dr. Kyaw Zin Lat from the Geotechnical Group from Yangon Technological University attended seminars, meetings and field trips prepared by respective group members of the project at IIS. The members were also able to visit various laboratories and experience activities in some facilities in the IIS during the IIS Open House 2016.

At ICUS lecture room exhibiting the SATREPS project posters during the IIS Open House, with Myanmar and Japanese project members

Seminar given by a member of the Meguro Laboratory

Presentation was made by all trainees on the last day of the training. Prof. Koshihara from the Earthquake-related disaster group commenting in response to a presentation by Dr. Pwint.
